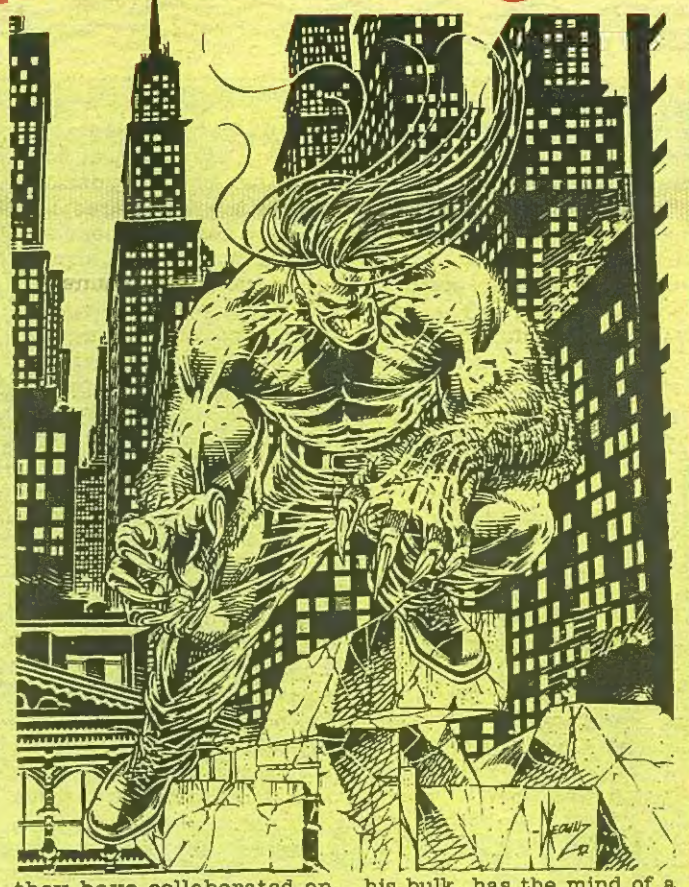
Keown Hopes Fans Can Dig Pitt



He's an enormous, bestial-looking alien with enormous clawed hands and a savage expression. Mentally, though, he's a placid young alien boy with psychic abilities. And the only person who has any concept of his true nature is a young human being, Timmy.

He's Pitt, and fans will meet him first in the pages of ***Youngblood #4,*** and subsequently in his own miniseries.

Pitt is the creation of Dale Keown, who first caught the eye of fans with his work on ***Dragonforce*** for Aircel, then went on to become a fan-favorite as the illustrator of ***The Incredible Hulk.*** Next month, though, Keown says farewell to the Hulk and hello to Pitt.

Pitt's *true* first appearance is ***Spawn #1***—but he appears only in a pin-up, not a story. A nine-page preview of the series is slated for inclusion in ***Youngblood #4;*** that preview story (as well as the miniseries) is cowritten by Keown and Brian Hotton. The two met each other when they were in a short-lived band; since then, they have collaborated on both music and comic books.

According to Keown, Pitt is "an alien creature—sort of a hybrid of another alien... Pitt is a member of this hybrid group of aliens—sort of super-soldiers—who are sent on reconnaissance missions and actually take over the governments that protect the planets they attack... There's this crippled alien boy who's an advanced psychic...the consciousness of this little boy gets transferred into this giant creature, and the whole package is known as Pitt... The creature is now viewed as a traitor because it no longer is an evil guy—the creature has the consciousness of this good boy." Since Pitt, for all his bulk, has the mind of a child—albeit a brilliant alien child—he and the young human boy, Timmy, quickly establish a rapport.

Pitt will begin as a miniseries; after that run is completed, Keown will consider whether to bring Pitt back as an ongoing series or a new miniseries—or whether to spin off other characters or concepts from ***Pitt*** into their own series. "I think there are other characters in ***Pitt*** that could make for interesting stories. When we come back after the miniseries, we may explore those possibilities..."

Pitt #1, a $1.95 comic, is scheduled for mid-November release.

by Cliff Biggers

Constantine Returns To His Fiery Roots

To his fans, John Constantine is known as the star of Hellblazer. But from where did the name come? That's what fans will begin to uncover in "Guys and Dolls," a three part story by Garth Ennis and Will Simpson that runs through ***Hellblazer*** #s 59-61.

"Guys and Dolls" explores Constantine's role in Hell in a roundabout way: he is called on to assist his demon friend Ellie, who has escaped from there. Her escape wasn't totally providential, though, as she and Constantine soon discover; she is just a pawn in a machiavellian scheme by the First of the Fallen. Through flashbacks, the story explores the first meeting of Constantine and Ellie some eight years ago, when she and her angel lover called on Constantine to assist them as they struggled against the forces of both Heaven and Hell. The entire storyline climaxes in a confrontation between Constantine and the First of the Fallen—a confrontation that is as mystical as anything ever featured in this series' pages.

Hellblazer #59, the first part of this series, should be on the stands as you read this; the second installment is scheduled for October 24th release, while the final installment should reach stores on November 19th.

by Kim B. Pearson

Marvel UK Launches the Second Wave of Its British Invasion

Earlier this year, Marvel UK began its version of the British Invasion with the launch of a variety of interrelated titles, including ***Death's Head II, Hell's Angel, Knights of Pendragon II, Motormouth,*** and ***Warheads***. Later this year, the war between the British heroes and the malevolent Mys-TECH escalates with the addition of two new super-team limited series, ***Team Helix*** and ***Shadow Riders***.

Team Helix, a four issue limited series written by Andy Lanning and Graham Marks and illustrated by Phil Gascoine and Kevin Hopgood, deals with a theme very familiar to Marvel fans: genetically enhanced teenagers. In the case of Team Helix, the enhancements have been carried out by Mys-TECH—and, at the same time, the organization has wiped the memories of the team members to make them more willing to carry out Mys-TECH's plans. As

Wolverine helps them to discover who they are and how they've been manipulated, Team Helix turns against Mys-TECH and confronts Mys-TECH operatives Prime Evil and the Pride in the heart of the Savage Land. ***Team Helix #1,*** a November 26th release, is priced at $1.75.

If ***Team Helix*** has a bit of an X-Men feel to it, then ***Shadow Riders*** owes a debt to Ghost Rider. This four issue limited series features a quartet of bikers who have returned from the dead imbued with strange powers given them by the Dark Angel. The Shadow Riders intend to use their powers to destroy Mys-TECH and to challenge the powers of Mephisto himself. They are joined in their struggles by Ghost Rider and Cable, each of whom has his own reason for disliking Mephisto. ***Shadow Riders*** is written by John Freeman and Brian Williamson and illustrated by Charlie Adlard; according to Marvel's Kevin Tang, Adlard's "reputation for glorious art in the UK is sure to carry over here." ***Shadow Riders #1,*** a December 10th release, is priced at $1.75.

If response to ***Team Helix*** and ***Shadow Riders*** is sufficiently strong, Marvel UK intends to reintroduce them in ongoing series in 1993.

Summer Camp: Burnt Weenies, Big Bonfires, & The Blood Club

Anyone who's ever gone to a summer camp has his or her own camp stories to tell; they range from tales of whimsy to sorrowful stories of traumatic experiences. When Charles Burns' creation Tony Delmonto, also known as Big Baby, goes to camp, though, his experiences are much more fantastic—and much more frightening—than those of any normal person. Readers can find out just how fantastic in ***Blood Club***, a new 36-page full-color deluxe release from Kitchen Sink.

Big Baby's adventures are never ordinary; his incredible imagination often brings his worst fears and most surreal imaginings to life, blurring the line between fantasy and reality. In ***Blood Club***, Tony hopes to become "one of the guys" at Camp Watakoma... but he soon finds himself rejected by virtually everyone. To "join the club," he travels with the other boys to a haunted island out on the lake. The boys have envisioned a typical camp-out evening of ghost stories, camp fires, and weird noises in the dark; what Big Baby finds, however, is the ghost of a boy who died a decade earlier—a ghost that needs Big Baby's help to find his final peace...

Blood Club is taken from Burns' ongoing weekly comic strip; Burns has revised the art in the strip for book publication, and is coloring the work in conjunction with Mike Newhall.

According to Kitchen Sink, "***Blood Club*** is suspenseful, humorous, and poignant all at the same time. Burns has the uncanny ability to get under the skin of his repressed, fearful Big Baby character and make him come alive in this book. He also has a good observer's talent for capturing the personalities of other, more normal boys and the youthful camp counselors who ride herd on the kids."

Blood Club will b e released in two format. The standard 36-page full color softcover edition is priced at $5.95; a signed and numbered limited edition hardcover with endpapers and a new tip-in plate is priced at $19.95. Both editions are slated for November release.

QUICKSHOTS

In Brightest Day, In Darkest Night, No Archives Shall Escape Our Sight...

It's been quite a year for Hal Jordan, the one true Green Lantern (at least, that's what all of us old-time fans think...). In addition to his regular ongoing comic, he's also earned guest-star spots in a variety of other books (including a four-parter reuniting Green Lantern and the Flash), he's helped usher Guy Gardner out of the Green Lantern Corps, and he's earned his own prestige-format oneshot (courtesy of Larry Niven and John Byrne).

GREEN LANTERN
AN INCREDIBLE MENTAL FORCE FROM THIS HUGE CREATURE... AFFECTING ME... WEAKENING MY WILL POWER... SO THAT I CAN'T GET MY POWER-RING BEAM TO REACH HIM!
ON A STRANGE AND FAR-OFF WORLD... WHERE HE HAS GONE IN RESPONSE TO A MYSTERIOUS PACKAGE RECEIVED VIA HIS BATTERY-GEM POWER... GREEN LANTERN BATTLES A CREATURE OF SUCH FANTASTIC STRENGTH THAT IT CAN RESIST THE POWER-RING ATTACKS OF THE EMERALD WARRIOR!
™ &©1992 DC Comics

Now that his future is looking quite bright, this might be an appropriate time to look back on his past and see how Green Lantern got to this stage in his life. If it's Green Lantern's past that you want to see, then you'll have to look no further than **Green Lantern Archives Volume One**, a 224-page volume reprinting the original GL tales from **Showcase** #s 22-24 and **Green Lantern** #s 1-5. These classic stories, written by *John Broome* and illustrated by *Gil Kane* and *Joe Giella*, are some of the finest superhero material ever produced in the Silver Age; the stories included in this volume introduce Abin Sur, Carol Ferris, Thomas Kamalku, the Guardians, and many other elements of the Green Lantern mythos.

To ensure that the volume is of the highest quality, DC adds that the Green Lantern Archives "is the first volume in DC's Archive series that features some pages photographed from the original art, part of DC's commitment to present these historically important works with the best production values possible." **Green Lantern Archives Volume One,** a November 12th release, is priced at $39.95.

Topps Is Feline Fine About Its WildCATs Cards

Many card fans have been disappointed to discover that some of the most anticipated comic-card series have featured nothing more than art reprinted from previously-released comic books. If you've experienced that feeling of dismay as you've torn open a foil pack only to discover an overly-enlarged piece of reprinted panel art staring back at you, then you'll be very pleased with Topps' **WildCATs Foil Cards**. These cards will feature some art taken from the comic book series—but creator-illustrator *Jim Lee* is retouching that artwork to make sure that it's appropriate for card reproduction. Lee is also producing all new art for many of the cards in this series; additionally, he has recruited the assistance of other fan-favorite artists, including *Brian Bolland*, *Dale Keown*, *Adam Hughes*, and *Joe Quesada*, to supply the art for these cards. The super-glossy cards have full-color fronts and backs and feature silver foil stamping on each card. Topps is randomly inserting new three-dimensional prism cards as well as Jim Lee autograph cards. The premium quality cards will be priced at $1.50 per pack; look for them in November.

Who Better to Go Underground Than Swamp Thing?...

Swamp Thing #126 offers a different sort of Swamp Thing tale as guest writer *Dick Foreman* presents a tribute to underground comics. In this issue's story, Swamp Thing helps to revitalize the life of a burned-out artist by appearing as the man's comic book character Mescalito (gee, what could that name mean?...). The issue includes a ten-page hallucination sequence. **Swamp Thing #126**, a $1.75 comic, is slated to hit the comic racks on October 29th.

quickly, be sure to let the folks at your local comic shop know that you're interested...and tell 'em that **CSN** sent you, okay?...

The Comics World According to Bob

Bob, the new Bob Newhart series about a creator who has mixed feelings about the "grim and gritty" revitalization of his creation Mad Dog, has already found a place in the viewing schedule of almost every comics fan; beginning early next year, it'll find a place in the reading schedule as well. Marvel Comics' *Pam Rutt* recently told **CSN** that Marvel has secured the rights to a comic book adaptation of the series; Marvel isn't sure yet whether the comic will simply tell the comic story of the comic book industry or whether it will also feature comic adventures of Mad Dog himself. **CSN** will give you more news as it becomes available, of course...

Graphitti Is Vamp-ing

Vampirella, the pulchritudinously vampiric star of her own series from Harris Comics, certainly has her share of admirers—and no wonder, since she is quite an attractive (albeit deadly) woman. One of those admirers is *Dave Stevens*, a well-known admirer of the lovely women of comics; Stevens has created his own rendition of Vampirella for a Harris cover, but it was simply too good to be left as just a cover. Graphitti Designs, in conjunction with Stevens and Harris Publications, is releasing **Dave Stevens' Vampirella** as a limited edition high-quality print. The 14" x 14" print will be limited to 850 copies, each signed by Stevens. Since this one is likely to sell out

Fans Can Become Robo-Technicians

Every **Robotech** fan has his own ideas about characters that should be featured in the Robotech Universe—or at least Eternity Comics hopes that they do!...Eternity is giving fans a chance to voice their opinions in a "Design Your Own Character" contest. The contest debuts in **Robotech II: The Sentinels Book II #17;** readers will be given a standardized form to fill out to help keep the designs consistent. **Robotech** editor *Dan Danko*, writer *Tom Mason*, and artists *John Waltrip* and *Jason Waltrip* will judge the entries; the winning characters will debut in **Robotech II: The Sentinels Book III** in mid-'93 as a part of the main storyline. Additionally, editor Danko adds that "if we can hold the sales levels steady on the series, there's a chance that **Robotech II: The Sentinels** will convert to full color with **Book III.**"

Robotech II Book II #17 introduces another change sure to please **Robotech** fans: with this issue, the book's frequency increases from six to nine times a year. Additionally, Tom Mason becomes the sole writer of the series at this time; previously, he had written **Robotech** in conjunction with *Chris Ulm*, who will continue to work with Malibu Graphics on other books.

OCTOBER CHECKLIST

The following comics are scheduled for release on the dates given; unfortunately, it is not uncommon for comics to be rescheduled or delayed due to various circumstances. As a result, the dates given are only tentative dates, and are subject to change. Also, different parts of the country will receive different books at different times; depending on where your local comics shop is located in relation to the publisher's printing site, your shop may receive these books later—or earlier—than the given date. If you have questions about delayed books, talk to the friendly people at your local comics shop; when CSN is notified in time, we will make changes in our checklist
